## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript
**Developer Tools:** Git, NPM
**Technologies/Frameworks:** React.js, Zustand, Tailwind CSS
**Soft Skills:** Problem-solving, Adaptability, Teamwork

## Experience

**The Wagon House**                                    **12 2023 – 05 2024**
*Frontend Developer*                                    *Bongaigaon, India*

- Designed and implemented secure login functionalities for admin.
- Developed an intuitive interface for adding, editing, and deleting cars.
- Enhanced UI performance, improving responsiveness and ensuring seamless user experience across devices.

## PROJECTS

**Inventory Management System** | React.js, Tailwind CSS, Local Storage

- Developed a fully functional inventory management system that allows users to manage product entries, track sales.
- Designed the product catalog allowing users to add new products, view product lists, and manage inventory stock.
- Integrated sales functionality, enabling users to track sales orders, with automatic stock deduction.
- Developed billing functionality with an itemized list of products, calculating totals.
- Ensured data persistence by storing product and sales data locally in the browser using local storage.

**RasoiWallah (Food Delivery Platform)** | React.js, Redux Toolkit

- Designed and developed authentication flows (sign-up, login) to ensure secure user access.
- Created a dynamic homepage showcasing top-rated restaurants.
- Integrated a shopping cart for seamless item management.
- Enhanced security through private routing and user authentication.

**TicketTube (Movie Booking and search from youtube )** | React.js, Tailwind CSS

- Integrated the TMDB API to display now playing and upcoming movies, along with detailed movie information including descriptions, ratings, genres, and more..
- Implemented a dynamic search feature for users to find now playing movies, making it easier to explore current movie options
- integrated the YouTube API to allow users to search for videos related to the movies, enabling a personalized experience by adding videos to Watch Later.

## EDUCATION
